

POLYTHENE ENVELOPES

PRODUCT DESCRIPTION

Venus Polythene (Poly) Envelopes are self-adhesive envelopes made from 50um thick, low density polyethylene (LDPE). Poly Envelopes provide protection against moisture, dust, and tears for important documentation. Simply place your invoice or other documents in the pouch, peel off the backing, and stick the envelope to the package or box. Documentation is easily visible in the window face or full face, plain or printed envelopes. To make Venus envelopes as economical as possible, we have reduced the width of the seal. Printed with water based inks. Adhesive is synthetic rubber. White film backed.

Available in plain or printed. Printed options below:

- "Packing Slip/ Invoice Enclosed"
- "Packing Slip Enclosed"
- "Document Enclosed"
- "Invoice Enclosed"

PRODUCT FEATURES

- Used to enclose important documentation and attach to your package.
- See-through design ensures documentation is easily visible without the need to open the package.
