

VH883HC L

BAND SEALER

PRODUCT DESCRIPTION

The VH883HC-L Band Sealer has the same features as the VH881 Band Sealer, but this model is a free standing machine. It quickly and easily creates clean and secure seals on LDPE, PE, PP, PVC, cello and layered bags, and stand up pouches.

Simply feed the filled bags or pouches into the feeding guard and the conveyor moves the bag through the heating element, sealing the tops of the bags. It comes with a basic imprint/embossing kit.

The VH883 comes complete with machine stand and in right to left conveyor travel direction. Widely used in food, medical, cosmetic, and componentry industries to seal bagged products.

PRODUCT FEATURES

- Adjustable speed control
- Temperature setting control
- 12 month warranty
- Servicing and spare parts available
